Professional Diversity Network, Inc. Announces Rapid Registered User Growth

CHICAGO, June 8, 2015 (GLOBE NEWSWIRE) -- [Professional Diversity Network, Inc.](#) (“PDN”) (NASDAQ: IPDN), a developer and operator of online networks and technologies that provide access to employment opportunities for diverse professionals in the United States, announced today that it has achieved rapid registered user growth, exceeding over 376,000 new registered users per month.

HIGHLIGHTS:

- 1,066,944 new registered users in the past 6 months
- 376,255 new registered users in May 2015 alone
- Over 1300% new registered user growth on a month over month basis in May 2015 versus October 2014, last full month before Noble Voice acquisition

“As we recently discussed in our Annual Stockholder’s Meeting, our 2014 acquisitions of Noble Voice and NAPW made PDN immeasurably stronger,” said Jim Kirsch, CEO. Kirsch continued, “For a technology company like us, the rate at which users adopt our platforms is a key performance indicator that we monitor very closely. We are pleased to share this graph, which depicts our month over month growth of new users since our acquisition of Noble Voice and demonstrates that we have successfully leveraged Noble Voice’s human and technological capital to drive explosive growth in this critical area.”

Sergio Zlobin, VP of Technology, explained, “We quickly integrated our technology with PDN during the first three months following our acquisition. By February of 2015, we had developed the formula that allows us to scale into the future. For a technology company, potential is denominated in registered users. Our growth demonstrates our potential. Our value is reflected in the fact that all new registered users since April of 2015 are TCPA-compliant opt ins, which means that we have the flexibility to use multiple outreach channels, and that allows us to continue drive down the cost of acquisition. My job is to continue to lead the development of new technologies that allow us to capture that value, and I strongly believe that is exactly what we will do.”

“As we pointed out in this year’s 10-K, all indicators point to diverse Americans predominating the economy and driving demand for their employment over the next several decades,” said Mr. Kirsch. He continued, “In May we registered over 22,000 new users through www.military2career.com, our channel for Veteran jobseekers; over 118,000 new users through www.blackcareernetwork.com, our channel for African-American jobseekers; and over 54,000 new users through www.iHispano.com, our channel for Latino jobseekers.” Mr. Kirsch concluded, “This data underscores why we are so confident that PDN has a bright future supplying diverse talent to Corporate America. Our 2014 acquisitions have positioned us to deliver unmatched scale and quality to companies that want to hire our users, and our growth is evidence that those users are listening and engaged.”
