Professional Diversity Network, Inc. Announces Financial Results for the Quarter and Fiscal Year EndedDecember 31, 2023

Chicago, IL, March 29, 2024 (GLOBE NEWSWIRE) — Professional Diversity Network, Inc. (NASDAQ:IPDN), ("IPDN" or the "Company"), a global developer and operator of online and in-person networks that provides access to networking, training, educational and employment opportunities for diverse and specialized individuals, today announced its financial results for the fourth quarter and fiscal year ended December 31, 2023.

"2023 was a challenging year for PDN, considering the optimism we had as we closed out fiscal 2022. The early 2023 downturn in the economy and reduced hiring in industries that are personnel heavy caused us to look to restructure ourselves internally and alter our marketing strategies." said Adam He, CEO of Professional Diversity Network. "We acquired Expo Experts at the beginning of fiscal 2023 and increased our interest in RemoteMore to approximately 73%. We also created an internal marketing department to focus on strategic outreach giving us the revenue generation potential that we need to be successful, as well as reducing costs from external sources used in this manner. We believe that these changes will allow us to focus our efforts more quickly and efficiently. We are looking to penetrate these strategic areas as the need for diversification in the workforce is still in demand. Overall, we were seeing hiring practices increasing in certain industries in second half of 2023 and into early 2024, as evidenced by our recently successful career fair events, specifically our partnership with the National Urban League in February 2024 and the Women's History and National (Security) Cleared events held in March 2024. We remain focused on building up core operations, capitalizing on strategic opportunities, and maximizing shareholder value."

Non-GAAP (Adjusted) Financial Measures

We believe Adjusted EBITDA provides a meaningful representation of our operating performance that provides useful information to investors regarding our financial condition and results of operations. Adjusted EBITDA is commonly used by financial analysts and others to measure operating performance. Furthermore, management believes that this non-GAAP financial measure may provide investors with additional meaningful comparisons between current results and results of prior periods as they are expected to be reflective of our core ongoing business. However, while we consider Adjusted EBITDA to be an important measure of operating performance, Adjusted EBITDA and other non-GAAP financial measures have limitations, and investors should not consider them in isolation or as a substitute for analysis of our results as reported under GAAP. Further, Adjusted EBITDA, as we define it, may not be comparable to EBITDA, or similarly titled measures, as defined by other companies.

The following non-GAAP financial information in the tables that follow are reconciled to comparable information presented using GAAP, derived by adjusting amounts determined in accordance with GAAP for certain items presented in the accompanying selected operating statement data.

The adjustments for the three months and year endedDecember 31, 2022 relate to stock-based compensation, litigation settlement reserves, loss attributable to noncontrolling interest, depreciation and amortization, interest and other income and income tax benefit.
